

HFS HITRUST Certification

Effective Date: March 20, 2019

HITRUST Certification letter

HITRUST Compliance

Based on the results of a HITRUST CSF Validated Assessment performed by an approved HITRUST External Assessors and documented in a HITRUST CSF Assessment Report, the following systems and applications of the organization are supported by an information protection program that is consistent with the objectives specified in the NIST Cybersecurity Framework:

Health Financial Systems - systems and applications used for cost reporting software development, cost report processing and storage

Definitions

HITRUST is an organization that champions programs and solutions that protect sensitive information and manage information risk & compliance for organizations for all industries. Assessments and certifications are based on the HITRUST CSF, a certifiable framework that provides organizations with a comprehensive, flexible and efficient approach to regulatory compliance and risk management. The HITRUST CSF has become the most widely-adopted security framework in the industry.
