## Others

Internet Explorer 7.0 or later, 32 bit browser only. Internet functionality requires Internet access (fees may apply).

Microsoft XML Core Services (MSXML) version 3.0 and 6.0.

Adobe Reader version 8 or higher.

## Files and Folders Permissions

Software Installation Folder - The software application creates temporary files and folders in the application installation folder, therefore the User Account must have permission to read, write, create, delete and modify files and subfolders in the folder where the HFS Cost Report software application is installed. These permissions are equivalent to the "Full Control" permissions setting.

Data Files Folder - The software application creates files for the purpose of storing cost report data, therefore the User Account must have permission to read, write, create, delete and modify files in a folder you designate as the location of the user data files. The data files folder may be the same of different than the software application installation folder. These permissions are equivalent to the "Full Control" permissions setting.

## Internet Connection

ECR Export and Check for Updates require Internet connection (fees may apply).

## Additional

Actual requirements and product functionality may vary based on your system configuration and operating system.
