

Whitelist Constant Contact Web Domains in a Security Program

Updated: January 24, 2020

Please ask your IT people to add Constant Contact's domains or IP addresses on a whitelist, which is an industry term for a "safe" list:

Constant Contact URLs

Please ask your IT people to copy the following Constant Contact URLs and add them to their whitelist:

- constantcontact.com
- r20.rs6.net
- rs6.net
- s3.amazon.com
- files.ctctcdn.com
- files.constantcontact.com

Constant Contact IP Address

Please ask your IT people to add these Constant Contact IP Ranges to their whitelist:

- 208.75.123.0/24
- 205.207.106.0/24

The formatting (CIDR notation) above signifies a range of IP addresses which is equivalent to 208.75.123.* and 205.207.106.*
