Software Improvements Over the last Year...

- Improved Speed of opening, displaying and calculating worksheets
- Improved Speed of Check for Updates
- Printouts – Added logic to create internal bookmarks in PDF files when print to PDF option is utilized.
- Create compressed PDF's
- Improved memory usage in our batch processes.
- Low/No Wksts added in all systems

4

More Software Improvements....

- STAR Edits
- Added Low Volume Payment Calc wkst as tab on Wkst E, Part A in 2552-96
- We added a place for entry of Title and date for Wkst S attestation
- Improved Printing of many worksheets
- Added non-CMS DSH Calculation worksheet in 2552-10 and Low Volume wkst

5

And More Software Improvements...

- Not new – but isn't our Help good?
- Import Other vendors Type 5 Records.
- Added S-2, Part IX
- Added a copy to clipboard button to the CBSA look up screen.
- Open worksheet from the edit screen
- New A-6 View

6

Support Issue

- Bad subject – retroactive edits 10900 includes the decimal – what? Cannot exceed 11 digits.
- Continuing Cost Center Code Edits at Acceptance – hopefully getting better.

7

API – Application Programming Interface

- Data Extraction
- Data Push
- Multiple File Processing
- Worksheet Field Information
- Cost Centers and Statistical Basis
- Basic File Information
- Available Files List
- Printing added this year

9

Provider Electronic Filing - SaFE

Why would providers want to do this?

1. Acceptance Pre-Scan
2. Comparison to Prior Year HCRIS Data
3. Cost Report Storage

10

Provider Electronic Filing - SaFE

- Does not replace submission of data to MAC.

11

Provider Electronic Filing - SaFE
