

PS&R Reconciliation Update

October 14, 2016

Luke DiSabato

Overview

- PS&R Reconciliation – Recent CMS Changes and Issues
- New fields affecting Hospital Cost Reports
- PS&R Splits needed for filing the report
- Questions

Recent CMS Changes to PS&R

- On Saturday September 24th, CMS released an update to the PS&R system that added 6 new fields to the csv file.
 - The new fields were Islet Isolation Cell Transplant Services along with 5 fields for LTCH PPS Site Neutral Payment which went into effect with cost reporting periods beginning on or after 10-1-15.
 - CR9570 explained the Islet Isolation, this was previously included as a New Tech payment but now is separated since not a New Tech.

Recent CMS Changes to PS&R

- CR9015 and CR9253 introduced the LTCH Site Neutral Payment Rate system. The new fields are Full Standard Payment, SSO (short-stay outlier) Standard Payment, Site Neutral Payment – Cost, Site Neutral Payment – IPPS, Site Neutral Discharges.
- CMS issued CR9662 on September 23rd to correct issues relating to RAC adjs on PIP providers. The effective date is January 1, 2017.

PS&R New Fields - Assignments

- The Islet Cell Transplant (ICT) is to flow to E Part A line 54.01 (this is a T10 change to the cost report).
- LTCH Site Neutral payment fields flow to E-3 Part IV lines 1.01 thru 1.04 (this is a T10 change to the cost report). The discharges are not assigned at this time.

PS&R New Fields - Assignments

- There have been a number of reasonably new PS&R fields that we have incorporated thru the software. Below is a summary of these items and the handling of these on the cost report.
 - Low Volume – although not new, there have been many questions and improper assignments. The PS&R amount is an interim amount and is supposed to be re-computed on E Pt A Exhibit 4. We assign this LVP as line 999.00 - unassigned. You also MUST answer S-2 Pt I line 39.

PS&R New Fields - Assignments

- Sequestration (SEQ) – also not new, this field is not assigned to the cost report with the exception for HHA providers. The amount is re-computed on the cost report. We assign this SEQ as line 999.00 - unassigned.
- Hospital Readmission Reduction Amount (HRR) – PS&R report 110 – effective for discharges on or after 10-1-12 – assigned to E Pt A line 70.94.
- Value Based Purchasing Adjustment (VBP) – PS&R report 110 – effective for discharges on or after 10-1-12 – can be a positive or negative amount - assigned to E Pt A line 70.93.

PS&R New Fields - Assignments

- DSH Uncomp. Care (DUC) – PS&R report 110 – this is an interim payment effective with discharges on or after 10-1-13, needs to be re-computed on E Pt A lines 35-36. We assign the DUC to line 999.00 – unassigned.
 - If you receive DUC reimb shown on PS&R, you **MUST** answer S-2 Pt I line 22.01 as Y. You are to leave E Pt A lines 35 and 35.01 as blank and the system will automatically input the proper amount on 35.02 from the CMS table.

PS&R New Fields - Assignments

- Hospital Acquired Condition Reduction (HAC) – PS&R report 110 – this is an interim payment reduction effective with discharges on or after 10-1-14, needs to be re-computed on E Pt A Exhibit 5. We assign the HAC to line 999.00 – unassigned.
 - If you have HAC reduction shown on PS&R, you MUST answer S-2 Pt I line 40 as Y. Although the HAC did not go into effect until 10-1-14, if your cost reporting period overlaps 10-1-14, you must fill out E Pt A Exhibit 5 column 2. The PS&R reconciliation does do this.

PS&R New Reports - Assignments

- CMS has come out with 2 new PS&R reports to summarize Model 4 Demo Bundled Payments (Report D01) and Model 1 : Bundled Payments for Acute Care Hospital Stays (Report D02). There are approx. 70 providers.
 - Model 1 Demo – Report D02 – the data on this report is combined with the PS&R 110 report.
 - The only new data field on the D02 report to be sent to the cost report is the Model I Discount Amount (DCT) and this flows to E Pt A line 70.92.

PS&R New Reports - Assignments

- Model 4 Demo – Report D01 – the following fields are assigned as follows:
 - Discharges (DISU) – S-3 Pt I line 1 col 13
 - Days – S-3 Pt I column 6
 - Charges are included on D-3 col 2
 - DRG (FSP) – E Pt A (and E Pt A Exhibits 4 & 5) lines 1.03 & 1.04.

PS&R New Reports - Assignments

– Model 4 Demo – Report D01 (cont'd):

- Outlier (OUT) – E Pt A (and E Pt A Exhibits 4 & 5) line 2.02. Also included on E-1 Pt I line 1 col 2 (Payments).
- DSH – Included on E-1 Pt I line 1 col 2 (Payments).
- DSH Uncomp. Care (DUC) - Included on E-1 Pt I line 1 col 2 (Payments).
- IME - Included on E-1 Pt I line 1 col 2 (Payments).
- Capital FSP (CFS) – W/S L Pt I line 1.01.
- Capital Outlier (COT) – W/S L Pt I line 2.01.
- Total Capital Payments (TCP) - Included on E-1 Pt I line 1 col 2 (Payments).
- Actual Claim Payments for PIP (ACP) - Included on E-1 Pt I line 1 col 2 (Payments).

PS&R Service Date Splits

- Below is a summary of PS&R splits that are needed based on the provider type and cost reporting periods.
 - IPPS Hospitals:
 - Hospitals paid Low Volume for I/P PPS services will need a PS&R split at 10-1 for reports overlapping 10-1 due to the Low Volume factor changes. Low Volume is effective FFY11 thru FFY15. The Low Volume payment is computed on W/S E Part A Exhibit 4.
 - SCH and MDH providers will always need a 10-1 split to calculate the HSP amount on E Pt A line 48 as rates change.

PS&R Service Date Splits

– IPPS Hospitals (cont'd):

- Cost reporting periods overlapping 10-1-13 and subsequent years no longer use E Part A line 1 but rather you need to place the DRG payments on E Part A lines 1.01 and 1.02. The lines are before and after 10-1 so any cost reports overlapping 10-1-13 and subsequent years that overlap 10-1, will need a PS&R split at 10-1.
- Hospitals with Rehab subunits along with Free-standing Rehab Hospitals need a PS&R split at 10-1-13 (for reports overlapping 10-1-13) due to LIP factor changes.

PS&R Service Date Splits

– IPPS Hospitals (cont'd):

- Hospitals with a Swing Bed SNF unit whose cost reporting periods overlap 1-1 need a split at 1-1.
- Hospitals with Rural Health Clinic or Federal Qualified Health Center units whose cost reporting periods overlap 1-1 need a split at 1-1.
- Hospitals that have their TOPS eligibility end midway thru the cost reporting period will need a split at that time. Large SCHs & EACHs (Urban or over 100 beds) providers eligibility ends 2-29-12. Rural hospitals with 100 or fewer beds end 12-31-12.

PS&R Service Date Splits

– IPPS Hospitals (cont'd):

- Hospitals with an ESRD unit whose cost reporting periods overlap 1-1 need a split at 1-1. For cost reporting periods beginning on or after 1-1-14, this split is no longer needed.
- Hospitals with an HHA unit should never split their PS&R as this will change the per beneficial count.

PS&R Basics - Hospitals

- The first thing is to set up Preferences relating to the PS&R. You want to do this when you do not have the PS&R Reconciliation open.
- Go to Options – Preferences then PS&R Options.
- The screen (shown on next slide) shows Statistics Option and Difference Report Option.
 - Stat Option – suggest checking this off – when printing out Stats (mainly hospitals), cost centers without stats will not be printed.
 - Diff Rpt Option – mainly a MAC option, most will not check off.

PS&R Basics - Hospitals

Worksheet Assignments
When a matching assignment is found, replace the existing detail:

☐ Only if existing detail is blank.
☒ Always
☐ Never

Line Number / Stat Code Assignments
When assigning line numbers or statistic codes, replace the existing

☐ Only if existing detail is blank.
☒ Always
☐ Only if existing detail is a stat code.
☐ Only if existing detail is a line no.
☐ Never

When you select Assignments, we strongly suggest Always - Always as shown above. This is for when you apply assignments but then make changes, having it as Always - Always ensures your latest changes are reflected in the PS&R system. The bottom check box is also suggested, gives you a warning telling you that you already assigned when you request to Apply again.

☒ Always prompt before starting the automatic assignment process.

Another setting we suggest is when you go to Options - Preferences, this is the screen that comes up, select Header Options boxes and also Show cell hints. This turns the worksheets into excel and gives ability to copy and paste.

PS&R Basics - Hospitals

- Our PS&R Reconciliation tool brings in the CMS PS&R extract (csv) file that is retrieved from the CMS EIDM (previously IACS) website. The website below will send you to the website to retrieve the PS&R thru EIDM.
- To go to PS&R thru the CMS portal use <https://applications.cms.hhs.gov>.
- New registrants must go thru <https://portal.cms.gov>.

PS&R Basics - Hospitals

- In the PS&R website, with the Select Reports, ensure you request Service Type – All as shown below:

Summary Report Request

* Indicates Required Field

2. Select Report(s)

☒ By Service Type

11x
12x

Report Groups

Include 1000 Report for Service Type

Do NOT select the 110 DRG Section nor include 1000 Report

Select by service type and include All

PS&R Basics - Hospitals

- In the PS&R website, ensure you request Summary report and both the PDF and CSV formats as shown below:

Summary Report Request

5. Select Report Format

☒ PDF
☐ CSV
☐ PDF & CSV

☐ Separate Files by Provider

PS&R Basics - Hospitals

- The csv file is created and saved in a zipped file, when you download this file from the CMS website, ensure you EXTRACT the csv file and do not open (it automatically opens in excel if you double click the file – if this occurs close it and DO NOT SAVE). The csv file will be imported into the HFS PS&R Reconciliation tool and the format cannot be changed or could cause errors.

PS&R Basics - Hospitals

- In your cost report, you will need to enter the Main provider name, provider number along with any sub-providers. You also must enter the FYB and FYE of the cost reporting period.
- The only other thing that you will need to do prior to beginning the PS&R in HFS is if you have a provider-based HHA.
- If you have an HHA, then you will need to enter the # of CBSA codes and the actual codes prior to import.

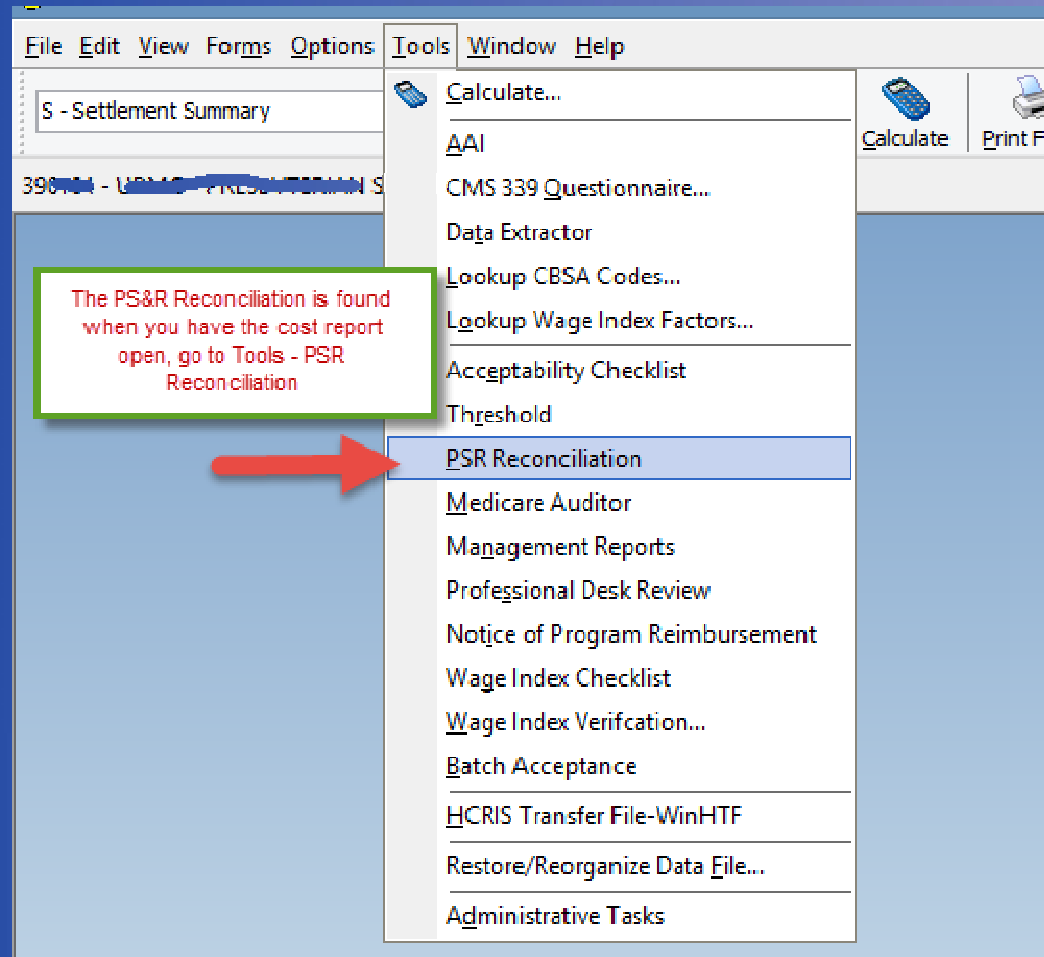

PS&R Basics - Hospitals

- For the 2552-10 report, go to W/S S-4 and enter # of CBSA codes on line 19 (you find the # of CBSA codes on the PS& pdf file). Then you enter the codes on lines 20 & subscripts. If you need more subscripted lines, close the W/S and reopen it – the lines will be added based on line 20.

Provider Statistical and Reimbursement Reports - Introduction

Welcome to Provider Statistical and Reimbursement (PS&R)

Welcome to the PS&R help page. Here we explain the purpose and the abilities of the PS&R Reconciliation system.

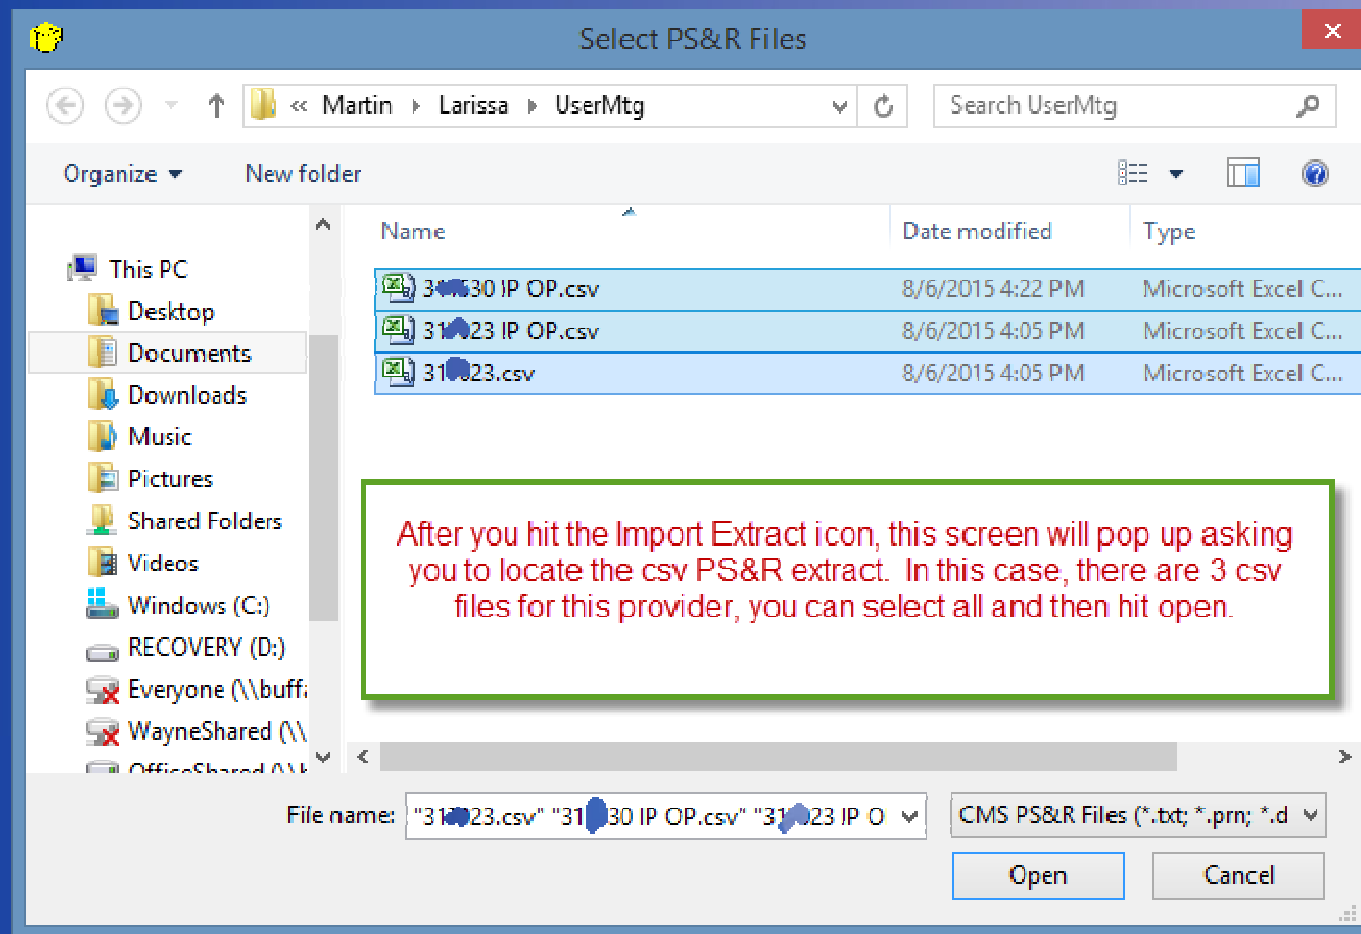

Before You Begin

Your Cost Report (MCR file) must have the correct Fiscal Year as well as all Component Information (provider names and numbers) entered on S-2. The Component

When you go to Tools - PSR Reconciliation, we will create a file in the directory where your mcr(x) file is located named the same as your mcr(x) file but with an extension mcp. You will get to a screen like this, the components are the main provider number and other sub-providers. If you do not have any, you will only see your provider # and name. The first step always is to select the Import Extract icon as shown above.

PS&R Basics - Hospitals

PS&R Basics - Hospitals

Provider Statistical and Reimbursement Reports - File Import

Import Reports - CMS PS&R Files

Files Processed:

Select the components to import then press the Import button.

Files With Data

- ☐ 311030 IP OP.csv

| 7 | 134 | PSYCH/3&4 BED | 40.00 | | 0.00 | |
| 8 | 200 | INTENSIVE CARE | 31.00 | | 0.00 | |
| 9 | 210 | CORONARY CARE | 31.00 | | 0.00 | |
| 10 | 214 | POST/CCU | 31.00 | | 0.00 | |

The provider cross reference is HFS' default cost centers for rev codes based on CMS suggestions. These need to be reviewed and possibly changed. The stat code col is used when you split rev codes to more than 1 c/c. If Pt B goes to diff line, you enter that in Override for Pt B Line #.

PS&R Basics - Hospitals

- If you have a rev code that is split to more than 1 cost center, you want to establish a stat code in the User Define Statistics at left side (see next slide).
- In the Provider Cross Reference, you zero out the W/S A line # and enter the stat code. If Pt B % split is different than Pt A, you will set up a 2nd stat code and enter the Pt B in the Override for Pt B Stat Code column.

Statistic Code Description

272i Rev Code 272 I/P
272o Rev Code 272 O/P

| Line | Description | Amount |
|------|--|--------|
| 13 | 50.00 OPERATING ROOM | 4,255 |
| 14 | 51.00 RECOVERY ROOM | 0 |
| 15 | 52.00 DELIVERY ROOM & LABOR ROOM | 0 |
| 16 | 53.00 ANESTHESIOLOGY | 0 |
| 17 | 54.00 RADIOLOGY-DIAGNOSTIC | 0 |
| 18 | 55.00 RADIOLOGY-THERAPEUTIC | 0 |
| 19 | 56.00 RADIOISOTOPE | 0 |
| 20 | 57.00 CT SCAN | 0 |
| 21 | 58.00 MAGNETIC RESONANCE IMAGING (MRI) | 0 |
| 22 | 59.00 CARDIAC CATHETERIZATION | 0 |
| 23 | 60.00 LABORATORY | 0 |
| 24 | 60.01 BLOOD LABORATORY | 0 |
| 25 | 61.00 PBP CLINICAL LAB SERVICES-PRGM ONLY | 0 |
| 26 | 62.00 WHOLE BLOOD & PACKED RED BLOOD CELLS | 0 |
| 27 | 63.00 BLOOD STORING, PROCESSING & TRANS. | 0 |
| 28 | 64.00 INTRAVENOUS THERAPY | 0 |
| 29 | 65.00 RESPIRATORY THERAPY | 0 |
| 30 | 66.00 PHYSICAL THERAPY | 0 |
| 31 | 67.00 OCCUPATIONAL THERAPY | 0 |
| 32 | 68.00 SPEECH PATHOLOGY | 0 |
| 33 | 69.00 ELECTROCARDIOLOGY | 0 |
| 34 | 70.00 ELECTROENCEPHALOGRAPHY | 0 |
| 35 | 71.00 MEDICAL SUPPLIES CHARGED TO PATIENTS | 5,745 |
| 36 | 72.00 IMPL. DEV. CHARGED TO PATIENTS | 0 |

In this example, the provider splits rev code 272 I/P and O/P based on different %'s so they create 2 stat codes (the stat codes can be up to 4 digits and are case sensitive), the I/P is 272i and O/P is 272o. The 272i is shown at left and the stats cannot have decimals, so in this case they allocate 42.55% to OR and 57.45% to Med Supp. We enter 4255 and 5745 (removing the decimals) and this will then allocate the I/P charges for rev code 272 on a 42.55% and 57.45% split. You can enter \$ amounts and not %'s, but again ignore decimal places.

PS&R Basics - Hospitals

490017 - PSR TEST HOSPITAL

× PS&R

The stat codes used 272i and 272o must be identical to what you enter as User Defined stat, if you use 272i or 272O, it will not assign.

zero out c/c as stat being used

PS&R Basics - Hospitals

- If you have a different assignment for a sub-provider (Psych or Rehab unit), you will need to either set up separate stat for these or make changes to individual reports.
- Once you complete the Provider Cross Reference, you are now ready to hit the Red Check – Assign icon. This will now post the worksheet, line and columns to the various PS&R reports.

PS&R Basics - Hospitals

- During the import of the csv extract, we create a PASS field for PS&R reports 110, 11R (I/P Rehab report), 11S (LTCH PPS report), 11U (I/P Psych report), 210 (SNF report), 13P and 850. This allows the user to input the Bi-weekly Pass Thru reimbursement manually to be included with Net Reimb on E-1.
- If you are a PIP provider, we will not import Net Reimb but rather include PIP field for entry.

PS&R Basics - Hospitals

- When you hit the Assign icon, it will place the worksheets, lines and columns in the PS&R recon only, it is not in the mcrx file until you export to the cost report.
- Prior to export, you may want to review the assignments, you can do this by going to File – Print and you will see the screen on the next slide.

☐ Print to File:

Print Preview Printers... Close

The User Defined Stats; the Cross - Reference then select Provider; the Difference Reports are the normal reports selected and can give the user info to review prior to export.

PS&R Basics - Hospitals

- When you are comfortable with the assignments, you are ready to Export to the cost report:

Import Cross-Reference Difference Report Delete Report Export

Export PS&R

Export
☒ to Auditor ☐ Replace
☐ to Cost Report

When you hit Export, you will then need to change the button from "to Auditor" to "to Cost Report" and hit OK.

Select one or more of these providers to include when exporting.

PS&R Basics - Hospitals

- After exporting to the cost report, you will want to select the word Component and hit Difference Report icon to compare PS&R to the mcrx values:

PS&R Basics

- Running the difference report will confirm the data has been exported to the cost report. You may also want to calculate the report to see if any Level I edits are related to the PS&R settlement amounts.

PS&R Detail Days

- We now import the days by revenue code and not in total (DCRU)

| | Revenue Code | Date of Service | PS&R Amount | Adjustment Amount |
|----|--------------|-----------------|---------------|-------------------|
| 1 | 110 | 08/31/2013 | 2,657,470.76 | 0.00 |
| 2 | 110U | 08/31/2013 | 6,806.00 | 0.00 |
| 3 | 114 | 08/31/2013 | 148,056.30 | 0.00 |
| 4 | 114U | 08/31/2013 | 142.00 | 0.00 |
| 5 | 117 | 08/31/2013 | 62,090.73 | 0.00 |
| 6 | 117U | 08/31/2013 | 117.00 | 0.00 |
| 7 | 124 | 08/31/2013 | 2,588,899.95 | 0.00 |
| 8 | 124U | 08/31/2013 | 2,483.00 | 0.00 |
| 9 | 134 | 08/31/2013 | 600,566.40 | 0.00 |
| 10 | 134U | 08/31/2013 | 576.00 | 0.00 |
