Calculate UCC DSH when Merged Facility

System: 02-Hospital [2552-10] **Category:** Calculate **Defect:** 001-00-011796 **Version:** 8.5.158.0 **Status:** Released
Release Date: 2/5/2016

When a provider answers S-2 PI I line 22.02 saying they are newly merged facility that requires UCC DSH to be computed and answered Y on line 22.01 that they received UCC DSH in interim, we should not populate the E PI A line 35.02 from CMS table as they need to compute the Factor 3 and compute a new UCC DSH amount - in these cases lines 35 & 35.01 should be input and 35.02 will be computed based on the 35 * 35.01.

Edit 990 UCC DSH kicking on SCH provs

System: 02-Hospital [2552-10] **Category:** Edits **Defect:** 001-00-011375 **Version:** 8.1.158.3 **Status:** Released

The attached file is kicking out Level II edit 990 relating to what the table is showing and what we calculate, we should not do this when the table identifies the provider as a SCH and not an amount computed
