Dear Clients,

We recently released a software patch for the 2552-10 Hospital System. The primary reason for this patch is to implement CMS changes, repair software issues, and implement additional features.

Hospital, 2552-10, version 7.1.157.2

Calculate - Modified calculation to use Worksheet S-2, line 110, to trigger the computation of Worksheet E, Part H, for 410A Demo providers. (D001-00-010239)

Calculate - Corrected an issue with the calculation of the Low Volume Payment caused by an error with DSH on Worksheet E, Part A, line 11, for cost reporting periods straddling 10-1. (D001-00-010241)

Calculate - Modified Worksheet S-8 to accommodate a combination of consolidated unit filings as well as a separate reporting of units not approved for consolidated filing. (D001-00-010242)

Calculate - Corrected an issue with the rounding on Worksheet E, Part A, line 34. (D001-00-010243)

PS&R - Added assignments for Worksheet E, Part A, Exhibit 5, for cost reports overlapping 10-1-14. (D001-00-010244)
