

April 4, 2014

Dear Clients:

The primary reason for this update is to include changes for the NetSynch and the 2552-10 Hospital cost report

Interface, MCRIF32, version 1.53.0.1

NetSynch - Corrected an issue with NetSync where we were picking up files from the Admin's other directories. (D001-00-009166)

Hospital, 2552-10, version 5.0.153.3

Calculate - Corrected issue with calculation of Worksheet E, Part A, line 36. In some cases amount was doubled. (D001-00-009159)

Calculate - Corrected calculation of Worksheet E, Part A, lines 35-36 and corrected transfer of data to appropriate columns. (D001-00-009164)

Edit - Edit 10900 revised to allow for 13 positions on Worksheet I-3 unit cost multipliers. (D001-00-009160)

Edit - Modified edit 20200S to reference "Worksheet E, Part A, column 1, sum of lines 1 - 1.02" in accordance with CMS clarification. (D001-00-009165)
