

August 13, 2014

Dear Clients:

We recently posted new updates for the MCRIF32 Interface. The primary reason for this update is to repair a software issue regarding the application of audit adjustments within the auditor feature.

**Interface, MCRIF32, version 1.55.0.3**

The system was updated to maintain compatibility for the 2552-10 and 2552-96 systems.

**Hospital, 2552-10, version 5.5.155.1**

Auditor - Corrected applying cost centers and special worksheets. Cost centers and special worksheets were not being applied in the correct order, which affected the resulting Adjustment Report. (D001-00-009572)

**Hospital, 2552-96, version 25.68.155.0**

Auditor - Corrected applying cost centers and special worksheets. Cost centers and special worksheets were not being applied in the correct order, which affected the resulting Adjustment Report. (D001-00-009568)
