Dear Clients:

We recently updated the software for the Interface. The primary reason for this update is to implement CMS changes, repair software issues, and implement additional features.

This update is ONLY available through the Check for Updates option under Help.

**Interface, MCRIF32, version 1.46.0.2**

PS&R - Modified the importing of CMS PS&R data to account for the incorrect column heading descriptions in the CMS file (D 001-00-008346).
