Dear Clients,

The HFS/Toyon HCRIS website has been updated with the 2nd Quarter data released by CMS on 7/30/2015. 4,441 2552-10 and 489 2552-96 reports were added. The site has processed this data and it can be viewed in the Snap Shot Reports, extracted through the Advanced Search and Extract and the .mcrx and .pdf reports (for 2552-10 reports only) have been made available.

In addition, we have uploaded 2540-10 and 222-92 data. If you are interested in testing this data, let us know and we will give you access.

HCRIS, version 1.2.0.16

Interface - Added ability to search for any provider on all reports. (D001-00-008305)

My Provider List - A new My Provider List page has been developed. This new provider list resolved the delete provider from the list issue. (D001-00-010261)

My Provider List - The Add provider to my list button on the search extract list of providers is now always available even if the provider doesn't have MCRX cost report file associated with it. (D001-00-010378)

My Provider List - When adding Providers and using the "State" drop down box, we fixed an issue where incomplete lists were appearing. (D001-00-009562)

My Provider List - Added dropdown list of all provider groups based on form type. (D001-00-010034)

Advanced Search and Extract - 2552-96 Specification screen has been corrected to allow for the proper selection of programs and components. (D001-00-009654)

Advanced Search and Extract - 2540-10 - Made the date fields larger to fully show dates in their entirety for the SNF Custom Extract feature. (D001-00-009965)

Advanced Search and Extract Custom - Fiscal Year Begin button to add specification was not working. (D001-00-010005)

Advanced Search and Extract - Corrected the saving of the column entered in the custom extract specifications. (D001-00-010016)

Advanced Search and Extract - Issue resolved concerning a large Wage Index Custom Extract. (D001-00-010047)

Advanced Search and Extract - 2540-10 - was not returning "over capacity" extracts. This has been corrected to properly queue those reports and save extracts to the users My Recent Extract page. (D001-00-010032)

Advanced Search and Extract | Custom Data Extractor - Corrected Data Extract Specification logic to recognize non-hospital components. (D001-00-010094)

Advanced Search and Extract - Fixed problem that was preventing PDF and MCRX files from downloading correctly. (D001-00-010095)

Advanced Search and Extract - We've added a tab control feature to allow users to tab over to the next textbox easier without lag time. (D001-00-010129)

Advanced Search and Extract - Updated save function to save content only instead of adding lines. Errors should go away with new function. (D001-00-010130)

Advanced Search and Extract - Before, the function was not recognizing the delete command. We've now added a prominent button called 'Delete Row(s)' in the middle of the screen that should trigger the Delete command anytime. (D001-00-010132)

Advanced Search and Extract - We've added a button called Exit in the middle of the screen. This should redirect you back from where you came from. (D001-00-010133)

Advanced Search and Extract - 2552-96 Custom Extract - Fixed to produce the expected extract results. (D001-00-010167)

Advanced Search and Extract - Older reports data had column numbers in 4 digit format, standardized them to 5 digit. This was causing data loss during Advanced Data Extract. (D001-00-010182)

Advanced Search and Extract - Screen for step 4, we added the default button capability so the Enter key act like clicking the Extract button. (D001-00-010185)

Advanced Search and Extract - Added number of reopening status to the data query in order to retrieve all correct cost report files. (D001-00-010327)

Advanced Search and Extract - Large data queries were not entirely processed as the output file was recreated every so often overwriting the previous data. (D001-00-010337)

Advanced Search and Extract - Corrected logic to create cost report MCRX and PDF file names. Some of them were created with an incorrect file name. (D001-00-010359)

Advanced Search and Extract - Code fix to avoid skipping of providers when extracting data from advance search screen and select ALL providers found. (D001-00-010376)

Advanced Search and Extract - Report produces according to the order the providers were sorted on the grid - added the text box on step 4 to display all providers that are going to be actually processed including their order - aligned edit boxes on step 1 - step 3 has the dropdown list with a fixed size of 200px so even if empty it won't collapse to a very little box - step 4 screen has now on the top the type and name of the extraction we are going to perform chosen from screen 3 including the color (D001-00-010380)

Advanced Search and Extract - Added few missing MCRX and PDF cost report files to the 2552-10 system. (D001-00-010386)

Advanced Search and Extract - Sometime the Advanced search extract was giving an error zipping files to download. This problem has been resolved, it was due to the fact sometime different submissions for same provider same fiscal year and same status generated the same cost report file name causing the zip process to stop as we can't have duplicate file names in the same zip archive. (D001-00-010417)

Advanced Search and Extract - In the Advanced search page for Step 2 all providers have the Type of control description along with the number. (D001-00-010418)

Advanced Search and Extract - Corrected calculation for worksheet E, Part A line 30 SSI ratio and line 33 allowable DSH in MCRX and PDF 2552-10 cost report files. (D001-00-010587)

Advanced Search and Extract - Few different submitted cost reports were producing the same file name according to CMS rules based on the provider number, fiscal year end and status. As such the database was retaining only one cost report file. The system is now able to determine the exact cost report file for each submission. (D001-00-010619)

Snap Shot Report: Reimb vs Cost report, sometime NaN appeared instead data. Corrected the program to process these kind of data correctly. (D001-00-010137)

Snap Shot Report - S-7 - Modified the fonts and printout to be consistent. (D001-00-009673)

Snap Shot Report - Wage Index - Added wage data info based on 2014 wage index data. Will update data quarterly. (D001-00-010001)

Snap Shot Report - DSH Summary - The new DSH fields should all reflect correct specs in both 96 and 10 fields. (D001-00-010035)

Snap Shot Report - We added the Specs for each available Snap Shot report. The Specs can be accessed by clicking on each Snap Shot reports "Specs" icon. (D001-00-010058)

Snap Shot Report - Available Facility Reports - HCRIS Creation Dates were not pulling from the correct place within the cost report. The appropriate field was not being used. (D001-00-010093)

Snap Shot Report - DSH Overview Report - fixed problem with the "Download to Excel" button. (D001-00-010068)

Snap Shot Report - IPPS Dashboard - The fields were populating incorrectly based on year. Upon clarification, we've updated these 4 CMI & Wage Index fields into the correct years. (D001-00-010146)

Snap Shot Report - Reimb vs. Cost Analysis Report added 2 lines: CMI After 10/1; CMI Before 10/1; Wage Index After 10/1; Wage Index Before 10/1 (D001-00-010163)

Snap Shot Report - PPS Hospital Dashboard report, corrected decimal positions for Wage Index and MCare CMI lines. (D001-00-010164) (D001-00-010164)

Snap Shot Report - DSH Summary report, DSH%, Allowable DSH %, Allow Capital DSH% were reported with a wrong precision. This was due to data coming from CMS in this format, we adjusted these number and put in place an automatic correction. (D001-00-010166)

Snap Shot Reports - Available Reports - Added Capability to view more form types (2540-10 and 222-92). (D001-00-010229)

Snap Shot Report - IP PPS Dashboard - Corrected the calculation of DRG Reimbursement and DSH (to include Uncompensated Care). (D001-00-010240)

Snap Shot Report - IP PPS Dashboard - Corrected calculation of the IME field. (D001-00-010282)

Snap Shot Report - Bad Debt Report - Duplicate data caused this data shifting, corrected logic to take in consideration possible duplicate data from CMS. (D001-00-010338)

Snap Shot Report - DSH Summary report - DSH % decimal places. (D001-00-010455)

Wage Data Analysis by CBSA- Updated for FFY 2013 and 2014. (D001-00-007396)

Provider Map - Fixed the query button to return the provider information (D001-00-010042)
My Provider Multi Facility Comparisons - Fixed the number of providers we can compare, before we were forced to pick 4 providers, now you can pick 1- 4. (D001-00-010256)
My Provider Roll Up Report   The Download option for the report didn't actually produce the report consequently nothing was downloaded. (D001-00-010726)

My Account Information has been fixed and it's now showing the individual account information. (D001-00-010439)

2540-10 MCRX and PDF files have been published and made available for Beta testing on the main website. Contact HFS if you would like access to this database. (D001-00-008826)

Tested the recreation of RHC/FQHC Files and have moved to the next step of recreating all 222-92 files for publishing to the live HFS HCRIS website. Contact HFS Support for access to test these files. (D001-00-010142)
