

February 8, 2013

Dear Clients:

Today's LTCIR update must be used for all report periods ending December 31, 2012 through December 30, 2013. This software has been approved by OSHPD. Our approval letter has been posted on our website under Support | Approval Letters.

There are no major changes to the 36th year (2012-2013) LTC OSHPD Report forms and instructions. OSHPD did make significant changes to the edit ranges. We believe this will actually result in fewer errors issued than previous years.

LTCIR, version 36.1.136.0:

AAI- Repaired an error in the EDIT program that was not letting a certain value (Page 10.5, line 85, columns 1-3) to export and this was fixed. (D001-00-000461)

AAI- Fixed logic so that AAI downloads to page 10.5 line 85, columns 1-3. (D001-00-000471)

Edits- Added fatal edits to LTCIR system. (D001-00-006603)

Updates- Incorporated year 36 changes received from OSHPD. (D001-00-006528)
