

HFS/Toyon HCRIS Website Update Notification

Dear Clients:

The HFS/Toyon HCRIS website has been updated with the 3rd quarter data released by CMS on 10/18/2017. Although we currently only sell subscriptions to the Hospital data, we do store all facility data. This quarter added 22,228 new reports to our database. This brings our total to 999,778 stored MCR reports. If you do not currently subscribe to our database but are interested, let me know and we will get you a demo. If you are a Hospital client but would like access to another provider type, we'll set you up as a tester.
