Software Patch Notification

We recently released a software patch for the HO system. The reasons for this patch are listed below.

[Visit our website](#)

Patch Notes

HO, 287-05, version 1.90.164.1

Data Entry - Corrected an issue where numbers entered into various Schedules were not being retained when the "Show thousand separator" option was selected. (D001-00-016859)

Printouts - Corrected an issue with printing Schedule F-1 with the inclusion of the thousand comma separator. This caused columns to skip so we reverted back to no commas as the column width cannot handle the size. Will try to get this when we convert the system to mcrx format. (D001-00-016867)

Getting the Updates

If the software is already installed on your computer, open the software and go to Help | Check for updates.

If you do not have the software already installed on your computer, go to our website- <https://hfssoft.com/>. At the top of the page there is an orange Download tab, click on it. If you are logged in you will be taken to our Download Center. If you are not logged in, you will be prompted to do so before you are taken to the Download Center. Then click on 'Full Version' to begin the installation. You will need admin rights to do this initial installation.

If the Help | Check for updates option is not available your company has opt'd for the Net Synch option and will distribute the update at their convenience.

Please contact us if you have any questions or comments regarding this patch.

Sincerely,
Health Financial Systems
