### Update Notes

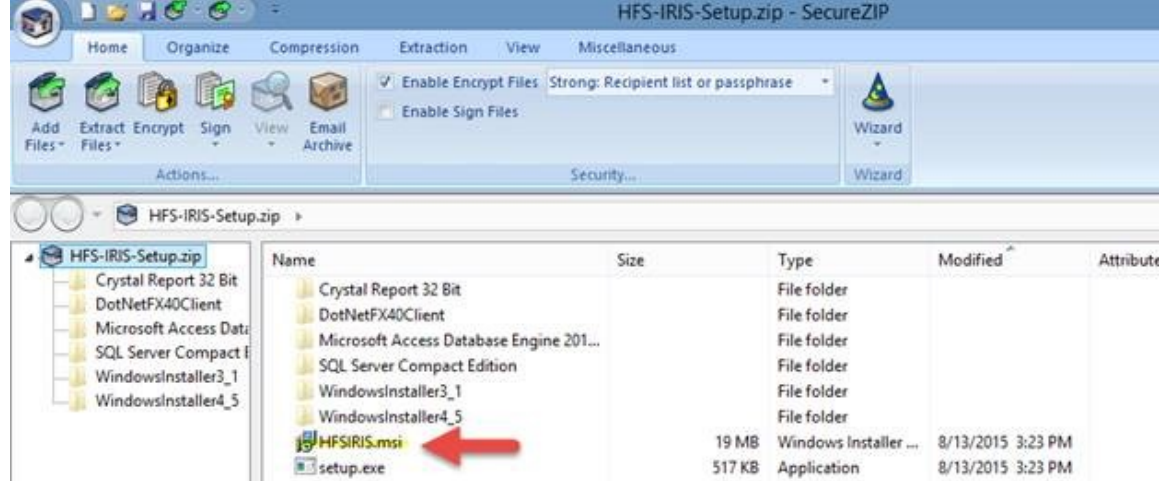

#### IRIS, version 5.15.0.0:

- D13997 - IRIS - Corrected an issue with the FTE count on the screen, we had an issue where the Audit report was correct with a resident but the screen was showing more than 1 FTE with leap year.
- D13998 - IRIS - Added the ability to run the Audit report for just ECFMG residents for the CHGME providers to accumulate FTEs.
- D14126 - IRIS - Fixed an issue when running the Residency Report sorting by Name, the SSN was being removed.
- D14378 - IRIS - Corrected an issue where CMS edit 716 was not triggering when the M or A record had 2 different provider numbers.

If you are currently on version 5.3.0.0 or later, you can now retrieve the updates from the Home Page of the IRIS system with the Check For Updates box in the top right corner of the page, just select the Click Here button.

If you are on an earlier version, you will need to go to our website [www.hfssoft.com](http://www.hfssoft.com) and go to the download page. You may be asked to log in. You will want to select the IRIS link to download. If you have already installed the IRIS software, when you retrieve the download, you will see the following inside the zipped file (ignore the dates below); you will only need to run the HFSIRIS.msi. If you have not installed the system yet, then run the setup.exe.

An **updated** copy of the IRIS User Guide is located at the following link:

If you have any questions or problems with the above, please let me know.

Thanks,
