Dear Client:

We recently updated the software for the OPO and ESRD systems. The primary reason for this update is to implement CMS changes, repair software issues, and implement additional features.

**ESRD, 265-11, version 3.1.155.1**

Calculation - Corrected the calculation of the report when the Calculate command was invoked from the Tools menu or toolbar. The edits listing would display but the report would not calculate. (D001-00-008796)

**OPO, 216-94, version 5.21.155.1**

Calculation - Corrected the calculation of the report when the Calculate command was invoked from the Tools menu or toolbar. The edits listing would display but the report would not calculate. (D001-00-008796)
