

HFS IRIS Update 5.9.0.0 Notification

Dear HFS IRIS Clients:

We recently posted a new update for the IRIS SQL system. The changes are summarized below.

[Visit our website](#)

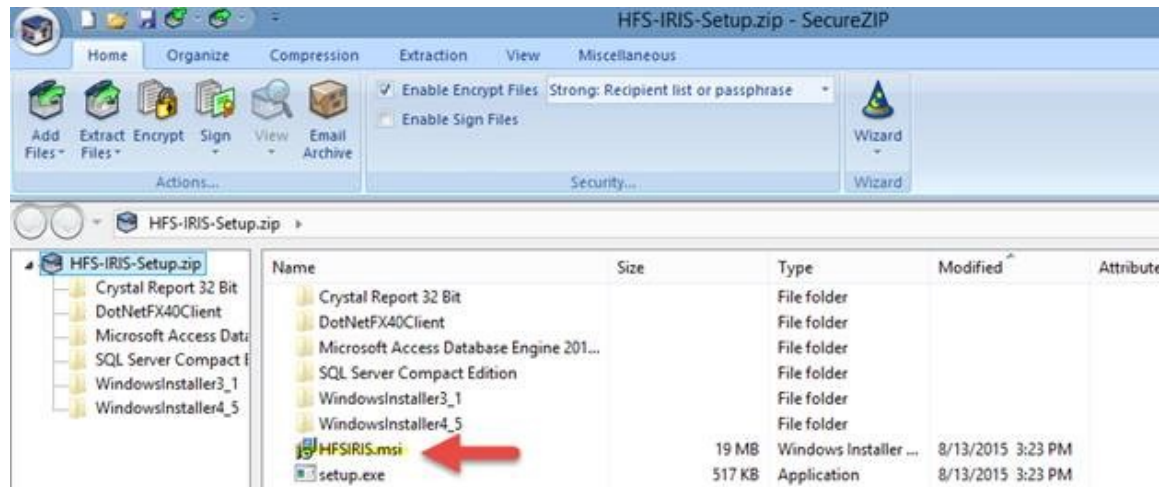

Update Notes

IRIS, version 5.9.0.0:

- D12916 - IRIS - Corrected the presentation of the overlap amount on the Audit and Residency Summary report as the amount was not being rounded.
- D12920 - IRIS - Added a csv output for the Audit Report located on the Data Management tab - Export Special Report.
- D12976 - IRIS - Corrected an issue with the Import Master Data Variance report that was not identifying the M residency code discrepancies properly.
- D12991 - IRIS - Corrected an issue where years complete greater than 9 was being not recognized as an error, CMS has a maximum in years complete of 9.
- D12996 - IRIS - Corrected an issue on Search Interns that when the request all and then narrow to specific where 0 records found, the screen would not refresh although record count was listed as 0. This will now refresh and show 0 records.
- D13037 - IRIS - Corrected an issue with requesting Audit Report Only - without the FTE Summary page, this is now working (previously was including FTE summary page).
- D3039 - IRIS - Corrected the printout report when Export CMS IRIS Data to read Export rather than Import.

If you are currently on version 5.3.0.0 or later, you can now retrieve the updates from the Home Page of the IRIS system with the Check For Updates box in the top right corner of the page, just select the Click Here button.

If you are on an earlier version, you will need to go to our website www.hfssoft.com and go to the download page. You may be asked to log in. You will want to select the IRIS link to download. If you have already installed the IRIS software, when you retrieve the download, you will see the following inside the zipped file (ignore the dates below); you will only need to run the HFSIRIS.msi. If you have not installed the system yet, then run the setup.exe.

An **updated** copy of the IRIS User Guide is located at the following link:

<https://www.hfssoft.com/doc/HFS%20IRIS%20SQL%20User%20Guide.pdf>

If you have any questions or problems with the above, please let me know.

Thanks,
Luke DiSabato
