Software Update Notification

We recently released a software update for the Hospital and ESRD systems. The primary reason for this update is to implement CMS changes, repair software issues, and implement additional features. This update also includes changes for Transmittal 9 to the Hospital Cost Report Form CMS-2552-10. More information on those changes can be found at <http://news.hfssoft.net/?p=331>.

Getting the Updates

If the software is already installed on your computer, open the software and go to Help | Check for updates.

If you do not have the software already installed on your computer, go to our website- <https://hfssoft.com/>. At the top of the page there is an orange Download tab, click on it. If you are logged in you will be taken to our Download Center. If you are not logged in, you will be prompted to do so before you are taken to the Download Center. Then click on 'Full Version' to begin the installation. You will need admin rights to do this initial installation.

If the Help | Check for updates option is not available your company has opt'd for the Net Synch option and will distribute the update at their convenience.

Please contact us if you have any questions or comments regarding this update.

Sincerely,
