Dear Clients,

We recently released a software patch for the Hospital System. The primary reason for this patch is to implement CMS changes, repair software issues, and implement additional features.

**Hospital, 2552-10, version 7.3.157.2**

Calculations - Modified the calculation of Worksheet A-8-3, line 11, to prevent erroneous edit 10755A. (D001-00-010387)

Edits - Added level II edit for Worksheet D-1, titles V and XIX lines 5 & 6, similar to edit 10200D. (D001-00-010377)

Edits - Corrected provider numbers listed in the CMS HRR table to enable proper look up and edits for Worksheet E, Part A, lines 101 and 103. This only affects MDH providers and only when CMS made a revision to the FY14 rates in the correction notice. (D001-00-010388)

PS&R - Added the 12P, 13P and 14P reports assignment for Device Credit (DVC) to Worksheet E, Part B, line 39.98. (D001-00-010390)
