Dear Clients:

We recently updated the software for the ESRD system. The primary reason for this update is to implement CMS changes, repair software issues, and implement additional features.

ESRD, 265-94, version 9.46.138.0:

ECR Export - Encrypted signature page did not print in 2000 265-94 report because electronic filing was not in effect at that time, so logic was never developed to print the page. This is fixed. (D001-00-007074)
