Hospital 2552-10 Patch Posted

Dear Clients:

We recently received clarification from CMS regarding the reporting of the 2552-10 Worksheet S-5, line 10.03, cols 1 & 2. In addition, we also included a calculation change for E Pt A line 49 for an MDH provider that had a geo-reclassification and a partial MDH status. Rare, however, we did have one and this fix is in this patch.

Hospital, 2552-10, version 4.9.152.1

Calculation - Corrected the calculation of W/S E, Part A line 49 for the MDH provider that had a geo-reclassification and partial MDH status.
