Health Financial Systems

We recently released a software update for the Hospital and ESRD systems. The primary reason for this patch is to implement CMS changes, repair software issues, and implement additional features.

Hospital, 2552-10, version 6.6.157.1

Calculations - Corrected the calculation of Worksheet E-3, Part V, line 8. (D001-00-010114)

Calculations - Modified the calculation of the UCC DSH to properly handle a cost reporting period that begins 10/1/2013 and spans two Federal fiscal years. (D001-00-010119)

ECR Import - Modified the calculations to automatically open Worksheet E, Part B for the IPF and/or IRF if there are costs from Worksheet D, Part V for the provider component. (D001-00-009926)

Management Reports - Modified the calculation of line 3 on Report 141 to match the calculation on Report 140. (D001-00-010018)

Management Reports - Modified Report 154 by adding subscripted lines 8.01, 9.01, ... 19.01 to the report. (D001-00-010019)

Management Reports - Corrected the data being used for comparison on the Cost Center Analysis report. (D001-00-010022)

Management Reports - Corrected the range of values being pulled from Worksheet A for use in the data comparison for Report 56 - Salary comparison. (D001-00-010023)

PS&R - to correct assignment for PS&R report 110 CFS for cost reporting periods overlapping 10-1-14 and ending on or after 10-1-14, it was not properly assigning to Worksheet L nor E Part A, Exhibit 4. (D001-00-010190)

ESRD, 265-11, version 3.10.157.1

ECR Import - Added special processing for Worksheet E, Part I lines 2.xx when importing ECR file that does not follow ECR specifications. (D001-00-010184)

Edits - Corrected the line comparison for Serious edit #107. (D001-00-010115)

Management Reports - Added report for Worksheet A-3 for the comparison of column 6 to the prior year. (D001-00-010112)
