HFS/Toyon HCRIS Website Update Notification

Advanced Search and Extract - The Provider and Title drop down boxes were removed for worksheets that did not have these options, while creating Specs in the Advanced Search and Extract feature. (D001-00-006850)

Advanced Search and Extract - In the custom data extractor we have included the 999.99 entry Wild Cards to extract ALL lines or columns. This is just like in the MCRIF32 system. (D001-00-008350)

Advanced Search and Extract - Fixed the ability to be able to extract S, II form the 2552-96 systems. (D001-00-008352)

Advanced Search and Extract - Corrected an issue extracting data from 2552-96 reports' W/S D and E series where we were adding a 0 to the column number in some cases. (D001-00-008993)

Advanced Search - Changed the order of the page load to keep the saved system type from being lost. (D001-00-009032)

Advanced Search and Extract - When creating a custom extract the drop down box for the worksheets is now properly ordered with S at the beginning. (D001-00-009034)

Advanced Search and Extract - in the custom data extractor E, Part A Ln 3.08 or 3.13 were not being extracted correctly. (D001-00-009036)

Advanced Search and Extract - Extra lines of code were being displayed on some page. This has now been removed from the pages. (D001-00-009047)

Advanced Search and Extract - Was not pulling all of the appropriate reports as set by the criteria. (D001-00-009052)

Advanced Search and Extract - Reformatted a couple text boxes to allow for larger, longer numbers to not be cut off. (D001-00-009053)

Advanced Search and Extract - Corrected the Advance Search and Extract where requesting all Teaching Facilities were not locating all of them. (D001-00-009060)

Advanced Search and Extract - Corrected an issue in the Advance Search and Extract where we were outputting duplicate provider records when the user selected the Most Recent report. (D001-00-009061)

Advanced Search/Extract - In the custom data extractor when doing extracts all providers with data will be extracted. If no data for the specified extract is available the provider will be omitted from the extract. (D001-00-009081)

Advanced Search and Extract - When filtering down to Teaching 'Y' the extract included a 'N' due to a prior year's filing data. Now will only include the FY specified information when determining what to include in the extract. (D001-00-009091)

Advanced Search and Extract - After filtering, the extractions had a couple duplicates. The extraction has been corrected and will now extract what was filtered down to and expected. (D001-00-009093)

Advanced Search and Extract - Data extractor will work no matter how many reports are selected. (D001-00-009107)

Available Facility Reports - Page now displays 'Low/No Report - No Data Available' in the recreate .mcx and .pdf columns if the report is a Low/No report. (D001-00-009108)

Available Facility Reports - The T2/T3 comparative column has been removed. (D001-00-009030)

General - Add a link to Provider Map to each of the Snap Shot reports and the My Provider list. (D001-00-009031)

GME Report - The Redistributed Cap increases are now being pulled from the correct place, worksheet E-4 line 20. (D001-00-009082)

Multi Facility Comparison Report - Resolved an error message that was appearing in the Multiple Comparison Report feature. (001-00-009023)

Multi Facility Comparison Report - Now does not matter which of the 4 search slots you put in your providers into. Error has been corrected. (D001-00-009024)

Multi Facility Comparison - Default for this report now shows the most recent reports for the providers in your My Provider list. Also, when searching for a particular provider only the most recent report will show up. (D001-00-009026)

Multi Facility Comparison - When using the PDF/Excel output icon report will now properly generate. (D001-00-009070)

Multi Facility Comparison Report - When viewing multiple providers the pdf and xls output methods no longer produce an error and will produce the data. (D001-00-009083)

Wage Index - We removed the (L.1 - L.2) from BOTH the L.3 and L.6 from the Adjusted Salaries - AHW section of the Wage Index Snapshot Report as these are Averages, not lines being subtracted. (D001-00-009021)
