

May 17, 2013

Dear Client:

We recently updated the software for the Hospital, 2552-10 system. The reason for this update was a problem printing W/S B part I, and the calculation of the Low Volume (W/S E part A, Exhibit 4), for a partial year SCH/MDH.

Hospital, 2552-10, version 3.14.141.0

Calculate - Modified the calculation of the E, Part A Exhibit 4 to handle a partial MDH scenario. (D001-00-007697)

Printouts -Modified many of the worksheet printouts of the 2552-10 to be better formatted and use fewer pages. (D001-00-007429)
