## HFS IRIS Update 5.18.0.0 Notification

Dear HFS IRIS Clients:

We recently posted a new update for the IRIS SQL system. The changes are summarized below.

Visit our website

---

### Update Notes

#### IRIS, version 5.18.0.0:

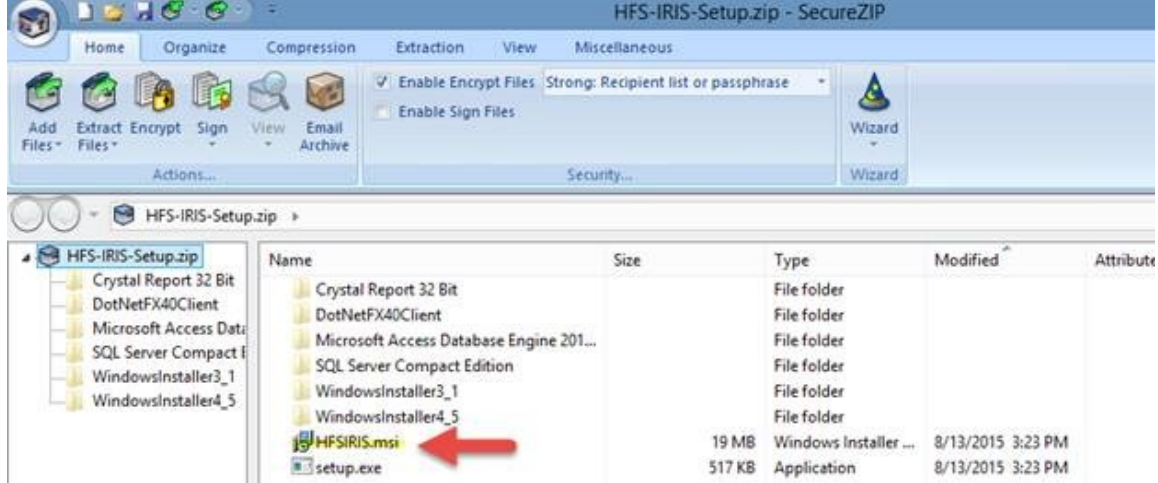

- D15198 - IRIS - We corrected an issue with our new Edit 726 that was hitting when you have multiple providers in the database with residents go to more than one with the same FY. The edit will only kick out when there are multiple M records for a resident with the same provider and FY.
- D15217 - IRIS - We received confirmation from CMS' IRIS vendor that apostrophes are allowed so we have removed edit 724 that was set up recently to stop the use in the dbf files.

---

### Getting the Updates

If you are currently on version 5.3.0.0 or later, you can now retrieve the updates from the Home Page of the IRIS system with the Check for Updates box in the top right corner of the page, just select the Click Here button.

If you are on an earlier version, you will need to go to our website [www.hfssoft.com](http://www.hfssoft.com) and go to the download page. You may be asked to log in. You will want to select the IRIS link to download. If you have already installed the IRIS software, when you retrieve the download, you will see the following inside the zipped file (ignore the dates below); you will only need to run the HFSIRIS.msi. If you have not installed the system yet, then run the setup.exe.

An **updated** copy of the IRIS User Guide is located at the following link:

<https://www.hfssoft.com/doc/HFS%20IRIS%20SQL%20User%20Guide.pdf>

---

If you have any questions or problems with the above, please let me know.

Thanks,
