Dear Clients:

We recently updated the software for the Interface, Hospital, SNF, HHA, CORF/CHMC, HO, Hospice, RHC, ESRD, CHDR, and LTCIR systems. The primary reason for this update is to implement CMS changes, repair software issues, and implement additional features.

Interface, MCRIF32, version 1.32.0.0:

Batch Data Extractor - Added two extra output formats in the form of a "CSV Pivot Table File (*.csv)" and a "Lookup Pivot Table File (*.csv)" to Batch Data Extractor. (D#001-00-005464)

PS&R - Added new PS&R "Rebilling Adjustment" column to columns we will import from PS&R CSV files. These data will import into a revenue code of RAD. (D#001-00-005698)

Hospital, 2552-10, version 2.38.132.0:

AAI - Fixed an issue where CCN data (provider number) and Zip Codes with leading zeroes were not being imported. Now, as long as the data with a leading zero is formatted as Text in the CSV file, the leading zero will import and then export to the cost report. (D#001-00-005664)

Auditor - Corrected the column print description for all adjustments to all the Tentative Payment worksheets to correctly read for column 1 "PART A MM/DD/YYYY"; and for column 2 to read "PART A AMOUNT"; and column 3 to read "PART B MM/DD/YYYY." (D#001-00-005571).

Batch Data Extractor - Added two extra output formats in the form of a "CSV Pivot Table File (*.csv)" and a "Lookup Pivot Table File (*.csv)" to Batch Data Extractor. (D#001-00-005464)

ECR Import - Made some internal changes. Checked Additional Reports and Ability to add an FI number still work, they do. (D#001-00-005624)

ECR Import - Modified ECR Import to default the print settings to print to a PDF file. Previously there was not default setting, which caused nothing to print when selecting reports without setting the output to the printer or PDF file. (D#001-00-005677)

Edits - Corrected the issuing of an erroneous edit #723 for DSH. (D001-00-005643)

Edits - Level I edit 13400S was modified by CMS to exclude CAH, for the S-7, SW/SNF check, as CAH SW/SNF are cost reimbursed, not RUGs. (D#001-00-005711)
