

September 24, 2013

Dear Clients:

The software was recently updated for the Hospital system. The primary reason for this update is to implement CMS changes, repair software issues, and implement additional features.

If you have already filed your cost report, and these issues do not affect you, there is no need to resubmit the report.

Hospital, 2552-10, version 3.23.147.0

Calculation - Modified the calculation of W/S L, Part I line 10 to conform to the CMS rounding standards for this line. We had changed this to match a previously agreed upon calculation, however that calculation was deemed not correct by CMS. (D001-00-008517)

Calculations - Corrected the calculation of W/S D-1 line 63 for a provider indicated on S-2 part I as a New hospital (answered S-2 part I line 85 = Y).
