

Donald V. Fry
Director, Health Financial Systems

Don Fry has over 40 years of experience in the development of Medicare / Medicaid cost reporting software and other applications to support healthcare financial management functions.

Prior to joining Health Financial Systems in 2020, Don was a Director at KPMG LLP, sharing responsibilities for developing and supporting national software products offered by the firm, as well as software tools to support the firm's national healthcare advisory practice.

Background

Prior to his 39-plus years with KPMG, Don was a University Administrator at Loyola Marymount University in Los Angeles, serving as the Director of Institutional Research and Assistant to the Academic Vice President.

Don has the following degrees, all from Loyola Marymount University: BBA in Finance, MBA and MS in Computer Science.
